BRANDY

Cognac is a specific type of brandy produced from distilled white wine. It must be distilled twice, using copper pot stills, aged in French oak barrels for a minimum of two years, and use one of 3 types of white grape varieties. Cognac is traditionally enjoyed as either an aperitif or digestif, with less consumption during meals. As with most rigid stereotypes though, feel free to pay them no mind.

VODKA

Vodka is a distilled spirit made most commonly from grains or potatoes. Traditionally, the clear liquor is famously from Russia and Poland, but today it's made all over the world. The spirit is consumed worldwide as one of the most popular liquor to use in cocktails, mixed drinks, and shots.

RUM

Rum is a liquor distilled from sugar, whether pure cane juice, syrup, or molasses. Rum is produced throughout the world and each region and country have different laws and traditions that are used in its production. Each of these will give the individual rum various and distinct characteristics. Our selection attempts to encapsulate different styles of the spirit and showcase their unique flavours for you to enjoy.

AMARI

Though local spirits are produced all over Europe, Amari have a particular significance in Italy, where they're deeply ingrained in the culture. Amari are served for all occasions, from a mid-afternoon pick-me-up, to a sign of hospitality at the end of a meal. Below is a non-comprehensive list of our favourite amari, including a few international variations. Saluti!

AGAVE

One of Mexico's most precious natural commodities, the agave plants has been part of its culture for more than 9,000 years. As grapes in wine production take on the flavours of their terroir, so do agaves and therefore the climate, altitude and soil all play a part in the flavours of agave spirits. This list highlights some of our most beloved brands, as well as multiple small production single village and wild agave spirits for you to explore.

HIGHLANDS

Draw a line between Edinburgh and Glasgow, and you get the Highlands. The Highlands is Scotland's largest Whisky producing area, covering to the north of Glasgow all the way to Wick in the north, including east and west regions excluding Speyside. Due to the large area, Whisky in the Highlands is very diverse, which allowed Highland distilleries to experiment with different techniques to offer a vast amount of different flavours.

GIN

Arguably the only spirit made for mixing, Gin has been dominating the current market, with various styles of production and place of origin, one might say now is the golden age of Gin. We have selected some of our favourites in order to paint a complete picture of the magnificent spirit, from the light and elegant to the bold and daring, and some very interesting oddballs, there's something for every Gin lover to enjoy.

LOWLAND

Lowland Whisky is most commonly gentle and light, often lacking in any serious peaty flavours. Commonly known as the "Lowland Ladies", these drams will often offer a gentle, elegant palate reminiscent of grass, honeysuckle, cream, ginger, toffee, toast and cinnamon. This sophisticated style is a result of the unique triple distillation only common in the Lowlands, and has resulted in Lowland Whisky being uniquely suited to introduce malts to new Whisky drinkers.

ISLAY

The small island of Islay is tucked away in Scotland's southernmost part of the Inner Hebrides. Due to unique make up of the peat on the island, Islay malts are pungent with smoke, brine and peat on the nose, but multilayered on the palate, displaying anything from mossy, peaty, floral mixes to peppery linseed and soapy hints. This complexity of layers is the reason Islay malts are often prized as the best in Scotland.

BOURBON & RYE

American whiskey is a distilled beverage produced in the United States from a fermented mash of cereal grain. Among the types included under this designation are bourbon whiskey, rye whiskey, rye malt whiskey, malt whiskey, wheat whiskey, and corn whiskey. All of these are made from mashes with at least 51% of their named grains.

AMRUT INDIAN BARLEY	Bangalore, India	16
M&H ELEMENTS SINLGE MALT PEATED	Tel Aviv, Israel	22
M&H APEX POMEGRANATE WINE CASK	Tel Aviv, Israel	35

SPEYSIDE

The region of Speyside is located in the north east of Scotland surrounding the River Spey, it's seen to be more of a sub-region to the neighbouring Highlands because of the high density of distilleries in the area. It's home to highest number of distilleries in Scotland with well over 60 at present. Due to the sheer volume of distilleries, there's a huge amount of difference in the character of Speyside Scotch, from lighter grassy numbers, to the sweeter, richer, sherried type. The single malts from the area are notable for their refined smokiness and complexity

JAPANESE

Japanese whisky owes its origins to Scotland. Masataka Taketsuru, whose family owned a sake brewery is known as the 'Father of Japanese Whisky'. After studying chemistry in Glasgow and working closely at the Longmorn Distillery, he then returned home and founded the Suntory Yamazaki Distillery with Shinjiro Torii. 10 years later Taketsuru went on to open his own distillery - Nikka Yoichi. Developments in whisky production including the use of a Coffey Still, utilising Japanese oak to finish whisky and reduction of lipids in wort have resulted in a delicate and floral dram that encapsulates pure harmony and balance.

AUSTRALIA

At the end of 2017, there were more than 120 listed distilleries in Australia with 31 of these in Tasmania. These New World Whisky's have been highly praised internationally, even so in 2014 Sullivan's Cove French Oak Cask winning best World's Single Malt, the first time a distillery outside Scotland or Japan had won the award.
